MATERIAL SPECIFICATIONS

Top guider profile

Extruded aluminium 23.5 x 24.6 mm (WxH) in dark grey (± RAL7021) powder coated (conditions apply)

Pull bar

Extruded aluminium 50 x 17 mm (WxH) in dark grey (± RAL7021) powder coating (conditions apply)

Bottom guiding profile

Extruded anodized aluminium 35.5 x 21.5 mm (WxH)

Side panel (optional)

Black ABS panel, straight for customisation or pre-shaped, aligned with the bodywork and/or interior of the van, for effective protection against insects (conditions apply)

Corner pieces and caps

Colour coordinated injection moulded parts in PA6 and PA6.6

Insect screen mesh

Single pleat black polyester mesh 1.3 x 1.3 mm (mesh opening), optional FR in accordance with standard FMVSS/CMVSS 302 (conditions apply)

INSTALLATION

On-face fixation on the inside with 4 clips underneath the door rubber at the top and 4 screws at the bottom. The required mounting space between door rubber and top cabinet is 27 mm and between sliding door and kitchen cabinet is 20 mm

CLEANING

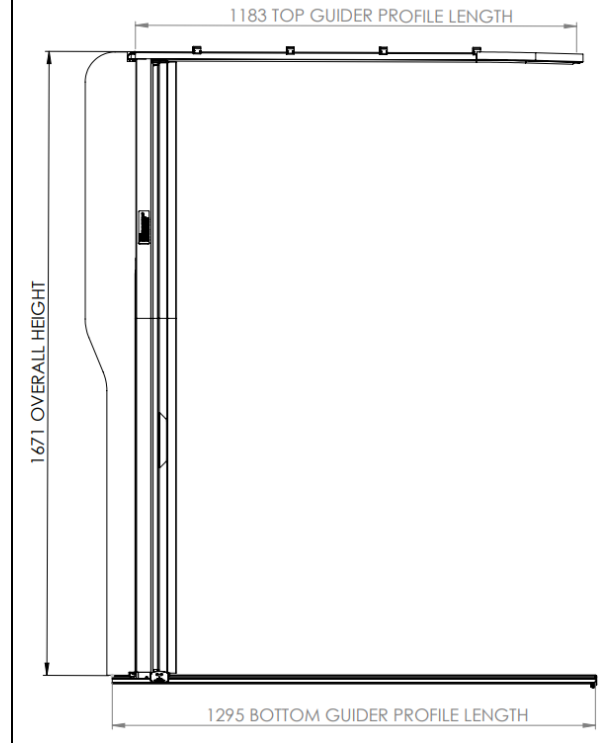

A soft damp cloth with mild detergent

PACKAGING

Individually or bulk with mounting set

SPECIAL NOTE

Combine a flyscreen door with genuine UCS combi-blinds for a total insect screen solution
